

PRODUCT SPECIFICATION

ELECTRONIC PARKING DISC II | MODEL: JJEPD200S (DK ONLY)

FEATURES	Automatically registers when the car is being driven and parked.
OPERATION	<p>WHEN THE CAR IS PARKED: Every time the car is parked and the engine switched off, the Electronic Parking Disc LED indicator will flash blue four times and the time of parking will be automatically rounded up to the next quarter hour. I.e, if you park the car at 14:05, the LCD display will set the time of parking at 14:15.</p> <p>WHEN THE CAR IS MOVING: When you start the engine and drive the car, the LCD display will change back to clock mode once driving mode is detected. The LCD display will switch off one minute later and remain so till the next parking.</p>
OPERATING TEMP.	≤ -20°C or ≥ +70°C
CERTIFICATIONS & APPROVALS	<p>Technology is based on an approved patent.</p> <p>The product is certified by the Danish Road Safety and Transport Agency with reference to Order no. 327, 2003 on parking discs with change to 1/2 2012.</p>
DISPLAY	7 segment LCD display. Displays parking time, 'P' icon when in park mode and low battery icon '🔋' when batteries are running out of power.
LIGHT	LED indicator flashes blue 4 times everytime the car is parked. When battery is low, LED flashes red 5 times and the LCD screen displays a low battery icon.
MOUNTING	For the product to serve as a valid parking disc, the Danish Road Safety and Transport Agency requires that it is correctly fitted in the lower right-hand corner on the windscreen of the car. The parking disc is mounted by 4 x 3M adhesive pads. A special 3M windscreen cleaning cloth is included and to be used prior to mounting.
